****Do not overlook the Sparkling Christmas souvenir sheet. See my commentary for details. \$0.50 for a copy of this souvenir sheet. ****

Special #1 Black "Celebrate the Century" album from the USPS with plastic pockets for the Celebrate the Century panes of stamps (Scott #3182-3191). This album includes the panes of stamps too (\$50 face value) which are still wrapped in plastic. \$60

Special #2 This is a set of 10 "Celebrate the Century Super Heroes Stamp Album". They are in the same format as comic books. Each book is 32 pages long. Printed in color and well-illustrated. Just like the panes of stamps, there is one book per decade. This set is in immaculate condition and was not used by the collector who bought them. \$20

Special #3 Shoebox of off paper, used regular issue US stamps. It weighs just under 2 pounds: 1 lb 14 ounces to be exact. There are some Christmas and Love stamps mixed in too. The majority of the material is from the 1938 Prexy to 1975 Prominent American series of issues. There is some earlier material to the 1920s (e.g., Scott #634, #684, etc.), but not a lot. No telling what you may find inside. \$25

Special #4 Used but not abused 2018 Scott US Specialized catalog. I get a new catalog every year. This is last years edition. \$40

Special #5 Scarce Scott #BK237 self-adhesive Blue Jay booklet pane. This is the pane with the tiny strips removed and the die cutting to fold the pane in half is 2 mm. lower than the normal panes. Difficult to find and easily overlooked. **\$150**

Special #6 Small glassine envelope with 100 assorted used worldwide stamps. Clean and off paper. **\$3.50**

Special #7 About 1500 FDCs – all are clean, unaddressed, and with the black and white cachet. The material starts around 1980 and goes through 2016. There are a few definitive issues mixed in. However, this is largely commemorative issues. Sounds boring, right? Here is the catch: this accumulation includes many of the 1990s and 2000s issues in used condition with nice, light cancels! You may not care about FDCs. However, there are lots of difficult to find used commemoratives in this accumulation. It's up to you if you want to remove them from the cover and put them in an album. **\$100**

Special #8 Flags of Our Nation folder. This is a USPS product with 6 fold out pages. All 60 of the Flags of Our Nation coil stamps are there in strips of 5 stamps. (Scott #4273-4332). The face value of the stamps alone is \$13.60. **\$20**

Special #9 Ninety page “Wonders of America” book. This is in the style of the annual USPS Comemorative Mint sets. This 8.5 x 11 inch book with cardboard covers has stories about each of the stamps on the Wonders of America pane of stamps. The book includes a mint pane of stamps (Scott #4033-4072). The face value of the stamps is \$15.60. The cardboard cover has a few wrinkles in it. **\$25**

Special #10 Russia, Scott #201b with inverted surcharges. There are 4 copies here. Scott only gives one catalog number. Accompanying this set is a photocopy of the Zagorsky catalog that outlines the varieties of this overprint. Three of the varieties are common and catalog \$20 or less. The best item is a Lithographed overprint which catalogs \$3700 and very rare to find. **\$1500** for the set.

Special #11 Early Worldwide collection. Formed by a collector living in Germany who died in 1951. The collection was in the family and untouched since then. Mixed mint and used material. Everything is hinged on homemade pages. I will caution you that the hinges used are not very peelable and sometimes he used folded gummed stamp margin pieces to mount the stamps. There is considerable catalog value here. The caveat is that it will require considerable work to carefully remove the hinges and remount the material. Overall, typical collection with expected small faults. The highest value issues are more off center and/or with more prominent faults (thins, light creases, etc). No trash. With care, all of this material is very presentable. Nothing in the collection is past 1950. There is a lot of material in the 1930s and 1940s range from WWII issues. There are a few \$100+ cat value items. However, there are many stamps with a \$5-\$20 catalog value. In France, there is a #3, #6, with a total of 38 early Ceres and Napoleon heads. About 400 French stamps total. Great Britain has a #3, #96 (\$150 cat, thin), #85 (\$150 cat, heavy cancel), #111-122 (\$250 cat), #127-139 (\$300 cat) and about 125 issues total. About 80 issues from Luxembourg. Switzerland had #36-40 (\$260, Fine-AVE copies), #98-102, and about 450 issues total including lots of semi-postals. About 250 issues from Czechoslovakia. The US has about 300 stamps and includes a beautiful #76 (F-VF, \$120 cat), #78 (AVE, \$325 cat), #77 (AVE, \$120 cat), Columbians to the 10¢ and other assorted early commems and Wash-Franklin heads. About 250 Belgium including #4, #13-16. Netherlands has 300 issues including #1, #2. Germany is, of course, the best part of the collection and the most comprehensive with over 1000 issues. Includes #1-10 (missing #8, \$350 cat.), #12 (pen cancel), #13 (mint, \$100 cat). Germany has a lot of Third Reich, Hitler, and WWII era material. Last but not least are three German approval books with mixed worldwide used issues. A bargain at **\$500** if you can invest the time to rework this collection.

Special #12 Set of 4 cinderella labels from the American Bank Note Company for the 1936 International Philatelic Exhibition in NY. Complete set of 4 in brown, red, blue, and green colors. This set is lightly hinged. **\$5**

Special #13 Group of 15 early covers. The best item is a #U227 with a perfect 1883 strike of Pawlet, VT with a fancy maltese cross cancel. Another #U227 has an 1884 Middletown Springs, VT star fancy cancel. There is a #U311 with a #209 added on a registered letter from Gelen Falls, NY on June 12, 1888 with fancy boxed cancel. There is a 1918 soldiers letter that was censored. The balance of the covers are older, but more ordinary. **\$35**

Special #14 Two hunting tags, both from PA. One is from 1966 and has a #RW33 attached (not signed). The other is a 1968 tag with #RW35 attached; also unsigned. The hunter must not have been successful these years. All of the game tags are intact! HA! **\$15**

Special #15 Small box with about 25 packs of Showgard or Scott black acetate strips. Most of the packs have been opened. **\$20**

Special #16 A 1955 Indenture document from Pittsburgh, PA franked with \$18.15 in US Documentary revenue stamps, \$162.50 in Commonwealth of PA state revenue stamps, and finally \$81.25 in School District of the Borough of Bethel Deed Transfer local revenue stamps. **\$10**

Special #17 About 30 covers addressed to Private John Morgan during WWII. I assume these were sent from his parents. Most are franked with combinations of #899-901 stamps. There is an airmail cover (#C25) and two special delivery covers. Most covers were opened very roughly. All the covers have Pittsburgh, PA postmarks. **\$8**

Special #18 Small stack of about 100 event covers from the 1990s. All appear to be different and are franked with 29¢ and 32¢ issues. All on small #6 envelopes. **\$20**

Special #19 Eight blue Scott International Postage Stamp albums. The albums are from the 1960s or early 1970s. The collector has not worked on this collection since the early 1980s. The albums are gently used and still very useful. The material is mixed mint and used. Much of it is hinged. Some of it is in black acetate mounts. Very conservatively, there are 10,000+ stamps in the collection. Many of the stamps are more modern (after 1940). Most of this material came from approvals or packets. There are some better issues here that obviously did not come from inexpensive packets. Some of the countries that have earlier/better material include: Great Britain, France, Austria, Germany, Belgium, Switzerland, Sweden, Romania, Netherlands, and Italy. Some of the countries that have a lot of stamps include: Czechoslovakia, China, Greece, Haiti, Guinea, Germany, Bhutan (several 3-D issues), Russia, Romania, Poland, Mongolia, Mexico, and Hungary. Lots of other countries have a few stamps or a few dozen stamps. The condition of the modern material is mostly sound. The earlier material has some small faults, but otherwise very typical material. You will not find any rarities here, but you will find some useful \$5 and \$10 items. Again, the albums are in great shape and can easily be added to. **\$400**

Special #20 #10 size cover, “Space Achievement Commemorative Souvenir., Item No 9859” from the USPS. Cover is full color cachet with a Sept 30, 1994 cancel for the launch of Space Shuttle Endeavor. In the bottom left corner is a MNH sealed copy of Scott #2842, the \$9.95 Moon Landing stamp. Issued for the 25th anniversary of the first moon landing. Very attractive cover. Original retail price was \$25 from the USPS. **\$20**

Special #21 Same cover as Special #21. However, this one is in a brown portfolio folder. It is signed in gold ink by the artist. Limited edition of 10,000 souvenirs. **\$35**

Special #22 USPS folder for STS-8 flight cover franked with Scott #1909 (\$9.35 Express Mail Eagle and Moon issue) and cancelled on Aug 14, Aug 30, and Sept 5, 1983 for the Space Shuttle Challenger. **\$10**

Special #23 Eleven blue Scott International Postage Stamp albums. The albums are older, possibly from the 1950s. The collection stops around 1980 with material. However, the bulk of the material (80% or more) is from the 1950s and earlier. In summary, much of the material is before the mass produced inexpensive stamps. Mixed mint and used stamps hinged on the album pages. The pages have the glassine interleaves between the pages. I estimate that about 75% of the collection is used; 25% is mint. At some point, the collection was exposed to moisture. The used stamps are fine. On the mint stamps, some are solidly stuck down, most are undamaged or lightly stuck down. The US has #26 (used), #C13 (hinged, glazed gum), #E1 (used, Fine, short perf) and about 200 other pre-1940 stamps. Countries having a lot of stamps include: Austrtia, Belgium, Australia, Denmark, Czechoslovakia, Russia, Danzig, Cuba, Costa Rica, Germany, France, Salvadore, Saar, Romania, Bulgaria, Canada, Brazil, India, Hungary, Greece, Great Britain, Yugoslavia, Japan, Italy, Portugal, Poland, Persia, Norway, Netherlands, Mozambique, Luxembourg, Switzerland, Spain and Turkey. Many other countries are present. The best part of the collection is extensive China with hundreds of early overprints (which will leave you cross eyed looking for varieties). A lot of the material is in the \$1-5 range. There are plenty of items in the \$5-20 range. I did not notice anything rare, but there is a lot of moderately priced material present. A conservative estimate is 12,000-15,000 stamps. This collection will take some work to carefully extract the stamps from the pages. The albums have a light musty smell because they were in a basement for many years. The albums are not in horrible shape, but I recommend not using them long term. **\$2200** for the eleven albums which are quite heavy. I can be flexible within reason on payment terms if needed.

Special #24 Russia, Scott #1598-1602. Set of 5 LH stamps. Scarce and popular set. Cat value is \$247.50. **\$175**

Full panes of stamps Once again, I bought a collection that contains 275 full panes of stamps. All panes are MNH and undamaged. They are offered at face value. Most of the panes are one-only copies. I will fill them to the best of my ability. I suggest ordering early. This selection does contain some better setenant issues.
